

TOWAGE

AND MARINE EXPERTISE

BOLUDA FRANCE

COMPANY

PRESENTATION

From local tugowner to world market leader in marine services

Its roots dating back to 1864, BOLUDA FRANCE has a very strong tradition in towage and marine services. Over the years, we have expanded our range of services while always maintaining a strong commitment to operational excellence, but harbor towage has always been the heart of our business.

Inspired by our heritage, we deliver reliable operations under international standards, while giving absolute priority to the safety which is essential to our clients' activities.

We proudly employ more than 1200 skilled employees and operate a modern and versatile fleet of 100 vessels in over 15 ports and terminals throughout France, Africa and the Indian Ocean.

SHAREHOLDING

In 2007, BOLUDA FRANCE fully integrated the Spanish conglomerate Boluda Corporación Marítima (BCM). With this merger, BCM's towage division, BOLUDA TOWAGE & SALVAGE, became one of the world leaders in turnkey marine services for ports and terminals while strengthening its international presence to over 55 ports and terminals.

MISSION

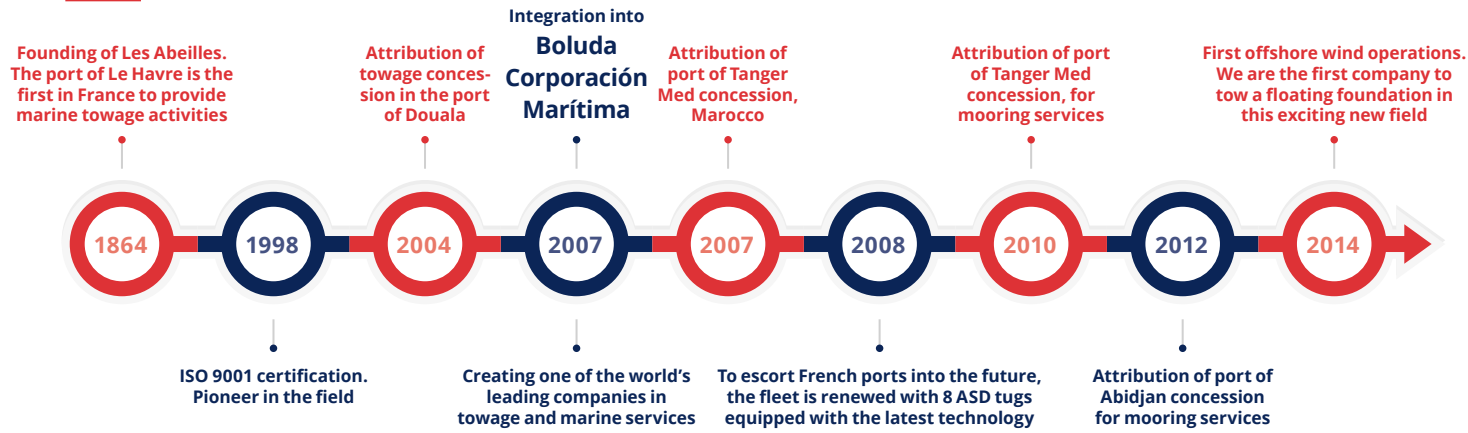

We aim to create added value for our clients while ensuring efficient and reliable marine services for their projects and calls.

VISION

To expand and develop our leadership in a constantly evolving international context, we aim to:

- Identify our clients' constraints worldwide and answer to their needs by offering them innovative cost-effective solutions.
- Contribute to the safety of harbour facilities and terminals with modern tugboats equipped with the most recent and most adapted equipment, especially in regards to firefighting and pollution control.
- Protect our clients' equipment by ensuring safe operations through regular training of our crews.
- Maintain a stable and attractive working environment for our employees.
- Respect the environment and do our utmost to protect our seas and oceans.

History

Fact and figures

- > Services to **15 ports and terminals**
- > Fleet of **100 vessels**
- > Maritime heritage of over **150 years**
- > **1200** offshore and onshore **employees**
- > **53 000 towage jobs** per year

WHERE

WE OPERATE

While we have established operations in many different parts of the world, we are proud to run them with the same flag of efficiency. Wherever we operate, we guarantee our services comply with the highest international industry and ethical standards.

Our experience and knowhow give us unparalleled operational expertise in marine services and assist us in providing comprehensive, cost-effective solutions to our customers. Our organization is reactive and flexible. We are able to expand our operations in minimum time and in multicultural environments, with the constant objective of contributing locally through jobs and investments.

"The essential connection between land and sea for our clients' logistics needs"

HARBOUR TOWAGE

PORT MARINE SERVICES

Harbour towage

EXPERIENCE AND KNOW-HOW

Because of our skilled crews and equipment highly adapted to all situations, we are able to assist vessels of all types and sizes. From small coasting vessels to giant containerships, each year we provide berthing, unberthing, and shifting services to thousands of vessels in all kinds of weather.

The heart of our business has always been ship assists. From mainland France to the Indian Ocean, we provide harbour towage services with passion.

SAFETY, PERFORMANCE, AND RELIABILITY

Safety and performance are essential elements that go hand in hand with cost-effective, high-quality services. Our operations answer to the highest international quality and safety standards and we apply them to all our operation sites. Our fleet is customized to each operational environment. It's our way of contributing to our clients' performance, and to the smooth operations of the ports.

Services are available 24 hours a day, 7 days a week. Non-stop

EMERGENCY RESPONSE

Our dedicated staff and sophisticated equipment are always ready to contribute to the safety of vessels and harbour facilities. We minimize risks and consequences with:

- Emergency towage
- Firefighting
- Pollution control
- Standby services

SALVAGE – ASSISTANCE

At sea, the smallest incident can quickly become disastrous. Because the protection of human lives, of the environment, and of our customers' assets is highly important to us, we also provide emergency solutions.

Our oceangoing tugs are strategically positioned to be able to intervene in the Channel, the Atlantic, the Mediterranean, and the Indian Ocean with very short notice.

Port marine services

BOLUDA FRANCE continues its strategic development around towage, its core business, by providing a full range of harbour services. Through customized operational solutions and the application of our high HSEQ standards, we answer to our clients' requirements for quality and efficiency.

LINES HANDLING

Mooring services actively contribute to the safety of vessels and harbour facilities

These services are possible because of highly skilled, experienced employees who expertly use specific equipment, such as launches and trucks, to manoeuvre heavy ship lines.

PILOT SERVICES

To answer to demand from our clients and local port authorities, we have developed pilot services in certain locations. We provide two types of pilot services:

- **Pilot boats** > We crew and manage our own pilot boats to efficiently transfer pilots to and from vessels, often in heavy seas.
- **Pilotage** > Our pilots bring their skilled knowledge of manoeuvres, of the port and its specific environment to masters of all types of vessels.

These services are essential to safe navigation and operations.

TERMINAL

TOWAGE

We have adapted our expertise to deliver turnkey marine services to the petrochemical, LNG, and mining industries. Through innovative approach and dedicated training, we deliver added value by allocating and managing the right assets and resources to meet the demands of each client.

With our strong towage experience of over 40 years on LNG and oil and bulk terminals combined with the experience of sister companies within the BOLUDA group, we provide a wide range of services to support terminal operations and mitigate associated risks.

These services include:

- Berthing and unberthing
- Escorting
- Pilotage
- Emergency response
- Firefighting and oil spill prevention
- Lines handling
- Marine consultancy
- Crew training
- Maintenance of light marine infrastructures

OFFSHORE

SERVICES

We have developed comprehensive transportation solutions for everything that can float. From our operational bases, we operate modern and versatile oceangoing tugs adapted to very different missions in support of the offshore, construction, shipping, and salvage industries.

We operate tugs with different bollard pull sizes to meet our clients' different requirements. For complex projects we can offer a combination of vessels and related equipment.

Our experienced crews, well used to the many challenges of the sea, assure safe delivery of your operations.

MARINE

RENEWABLES

Our maritime heritage enables us to deliver marine solutions to the offshore wind and marine energy industry. Together, our project team and expert crews provide solutions to the most demanding and complex challenges.

Our philosophy is to work side by side with our customers to deliver enhanced value and trust. The ability to combine specialized equipment, experienced onshore staff, and skilled crews enables BOLUDA FRANCE to offer reliable, cost-effective solutions to support the construction, operation and maintenance of renewable energy projects throughout European waters.

This is supported by our compliance to the highest international standards of quality and safety.

Our services include:

- Marine services > towage, general assistance, support vessel, crew transfer
- Marine expertise
- Skilled personnel
- Equipment
- Vessel chartering
- Administrative and logistic support

Fleet

BOLUDA FRANCE owns, manages and operates a diverse fleet of one hundred vessels well adapted to every challenge we face.

Our fleet is composed of terminal tugs, harbour tugs, oceangoing tugs, pilot boats, mooring boats, and crew boats.

As a traditional ship-owner, we have extensive experience in newbuild project management. We study in depth client requirements and environmental analysis to design state-of-the-art vessels with leading tug designers and shipyards.

HSE-Q

We are committed to deliver our services in line with our Health, Safety, Environment and Quality management system. The HSE-Q policy ranks among the company's top priorities and is directly supervised by the top management.

We create the conditions for each employee to feel involved in the improvement of both our system and services towards our customers.

This approach is essential to:

- Demonstrate our ability to provide a service which complies with our customers' requirements and regulatory requirements.
- Increase our customers' satisfaction by the effective application of the system, and in particular, implement a continuous improvement process. In order to respond to the current values of our society, we have integrated in this quality approach a common Safety, Health and Environment policy for companies in the Group.

All our vessels and operating companies work under our HSE-Q management system which is certified for:

- ISO 9001
- OHSAS 18001*
- ISO 14001*
- ISM Code

* Under process. Initiated in 2015
